

LiqTech Expands Distribution Coverage in the Irish Swimming Pool Water Filtration System Market

📅 Mar 11, 2025

🕒 9:00 AM ET

BALLERUP, Denmark, March 11, 2025 /PRNewswire/ -- LiqTech International, Inc. (NASDAQ: LIQT), a high-tech filtration technology company that manufactures and markets highly specialized filtration products and systems, today announced that it has entered a distribution and partnership agreement with PoolCourt Engineering Ltd. for the Irish commercial swimming pool market. The agreement covers LiqTech's full PurePool™ product range, with the first order under this agreement scheduled for delivery in Q2 2025.

This agreement aligns with LiqTech's strategic goal to expand its market presence in Europe and leverage its innovative silicon carbide filtration technology for high-demand applications. By entering the Irish market, LiqTech aims to accelerate revenue growth, strengthen recurring business opportunities, and reinforce its leadership in sustainable water filtration solutions.

PoolCourt is a prominent company in the Irish leisure market, specializing in the design, supply, installation, and maintenance of a wide variety of Swimming Pools, Spas, Exercise Pools, Hydrotherapy Pools, Saunas and Steam Rooms.

LiqTech's CEO Fei Chen commented, "Established in 1989, PoolCourt has decades of experience in the Irish commercial pool market and has completed numerous large-scale projects. With an attractive portfolio of upcoming projects, this agreement provides LiqTech with a strong opportunity to expand in Ireland. We are excited about the business potential and look forward to a successful partnership."

Innovative Filtration Technology with Proven Benefits

LiqTech's PurePool™ filtration system offers a compelling alternative to traditional media filtration systems used in commercial pools. Customers have reported significant advantages, including an 80% reduction in water consumption, 60% lower energy costs, and 30% less chlorine usage. Additionally, the compact system requires only one-third of the space of conventional filtration systems, making it an ideal solution for retrofitting without the need for major structural modifications.

The Aqua Solution® LiqTech's ceramic membrane technology further enhances water purification efficiency. Compared to traditional sand filters, it delivers finer filtration, lower energy consumption, and higher flow rates, making it a cost-efficient and environmentally sustainable choice for the industry.

ABOUT LIQTECH INTERNATIONAL, INC.

LiqTech International, Inc., a Nevada corporation, is a clean technology company that provides state-of-the-art ceramic silicon carbide filtration technologies for gas and liquid purification. LiqTech's silicon carbide membranes are designed to be used in the most challenging purification applications, and its silicon carbide filters are used to control diesel exhaust soot emissions. Using nanotechnology, LiqTech develops products using its proprietary silicon carbide technology, resulting in a wide range of component membranes, membrane systems, and filters for both microfiltration and ultrafiltration applications. By incorporating LiqTech's SiC liquid membrane technology with the Company's extensive systems design experience and capabilities, LiqTech offers unique, turnkey solutions for the most challenging water purification applications.
